

2025 (4th)

**CONSTRUCTION
SAFETY
CONFERENCE**

August 6 – August 7
Lawrence, Kansas, USA

The 4th annual Construction Safety Conference (CSC 2025) is scheduled for August 6-7, 2025, at the University of Kansas in Lawrence, Kansas. The conference theme, “Safety Knowledge Foundations”, was chosen to address the critical need for enhancing safety practices within the construction industry, bridging the gap between academia, industry professionals and government bodies. This conference aims to generate and build foundations of safety knowledge that can be directly translated into practice, fostering long-lasting positive change.

The conference is two days, with Day 1 focusing on knowledge generation and Day 2 centered around practical application. Each day will feature Keynote speakers, who will cover essential topics such as improving workplace safety, addressing chronic diseases and conditions prevalent in construction, and reducing musculoskeletal disorders through innovative technologies and Prevention through Design (PtD) strategies.

We look forward to hosting you at CSC 2025 as we work together to shape the future of workers’ safety, health, and well-being!

KEYNOTE SPEAKERS

Improving
Workplace Safety

Reducing Musculoskeletal
Disorders using Robotic
Exoskeletons

Construction Chronic
Diseases and
Conditions

Prevention through
Design

**TODD
UNDERWOOD**

Area Director, Occupational
Safety and Health
Administration (OSHA)

JAY KIM

Associate Professor,
Texas A&M University

**TODD
STUECKLE**

Co-Coordinator/Co-Chair,
Chronic Disease Council,
National Occupational
Research Agenda

**MICHAEL
TOOLE**

Former Dean of the
College of Engineering,
University of Toledo

CONFERENCE COMMITTEE

Conference Chairs
