

CONFERENCE
ANNOUNCEMENT

2023 CONSTRUCTION SAFETY CONFERENCE

- 09 – 10 August 2023
Lawrence, Kansas, USA

NCCS
The Craig and Diane Martin
NATIONAL CENTER FOR
CONSTRUCTION SAFETY

SAFE BUILT ENVIRONMENT

HARNESSING POTENTIAL OF MANAGEMENT TECHNIQUES AND DIGITAL TECHNOLOGIES

The 2nd Construction Safety Conference (CSC 2023) will be hosted by the Craig and Diane Martin National Center for Construction Safety (NCCS) at the University of Kansas on August 9-10, 2023, in Lawrence, Kansas, USA.

The first day is a Cocktail & Welcome Dinner, and the second day blends practical construction safety subjects with research presentations. It will provide a platform for academics and practitioners to discuss current and emerging research issues, findings, and new developments in construction safety management.

The conference will feature theoretical discussions, case studies, data analysis, and industrial practices presented as double-blind peer-reviewed research papers. It also provides a great opportunity for interdisciplinary research and industrial networking at local and international levels.

All accepted papers will be published in the EPPM Journal (indexed by SCOPUS and EI) following a full double-blind peer-review process. The CSC 2023 Conference is expected to attract high-quality papers from prominent academics, students, and industry practitioners.

THRUST AREAS

We are inviting articles with the following topics although not limited to all topics related to construction safety and management.

All accepted papers will be published in the EPPM Journal (indexed by SCOPUS and EI).

- Computing in safety
- Construction safety
- Hazard identification
- Healthy workplace
- Information technology application
- Legal aspects in safety
- Mental health
- Prevention through design
- Risk Assessment
- Safety culture and awareness
- Safety education and training
- Safety equipment
- Safety management
